

*We set the standard.*

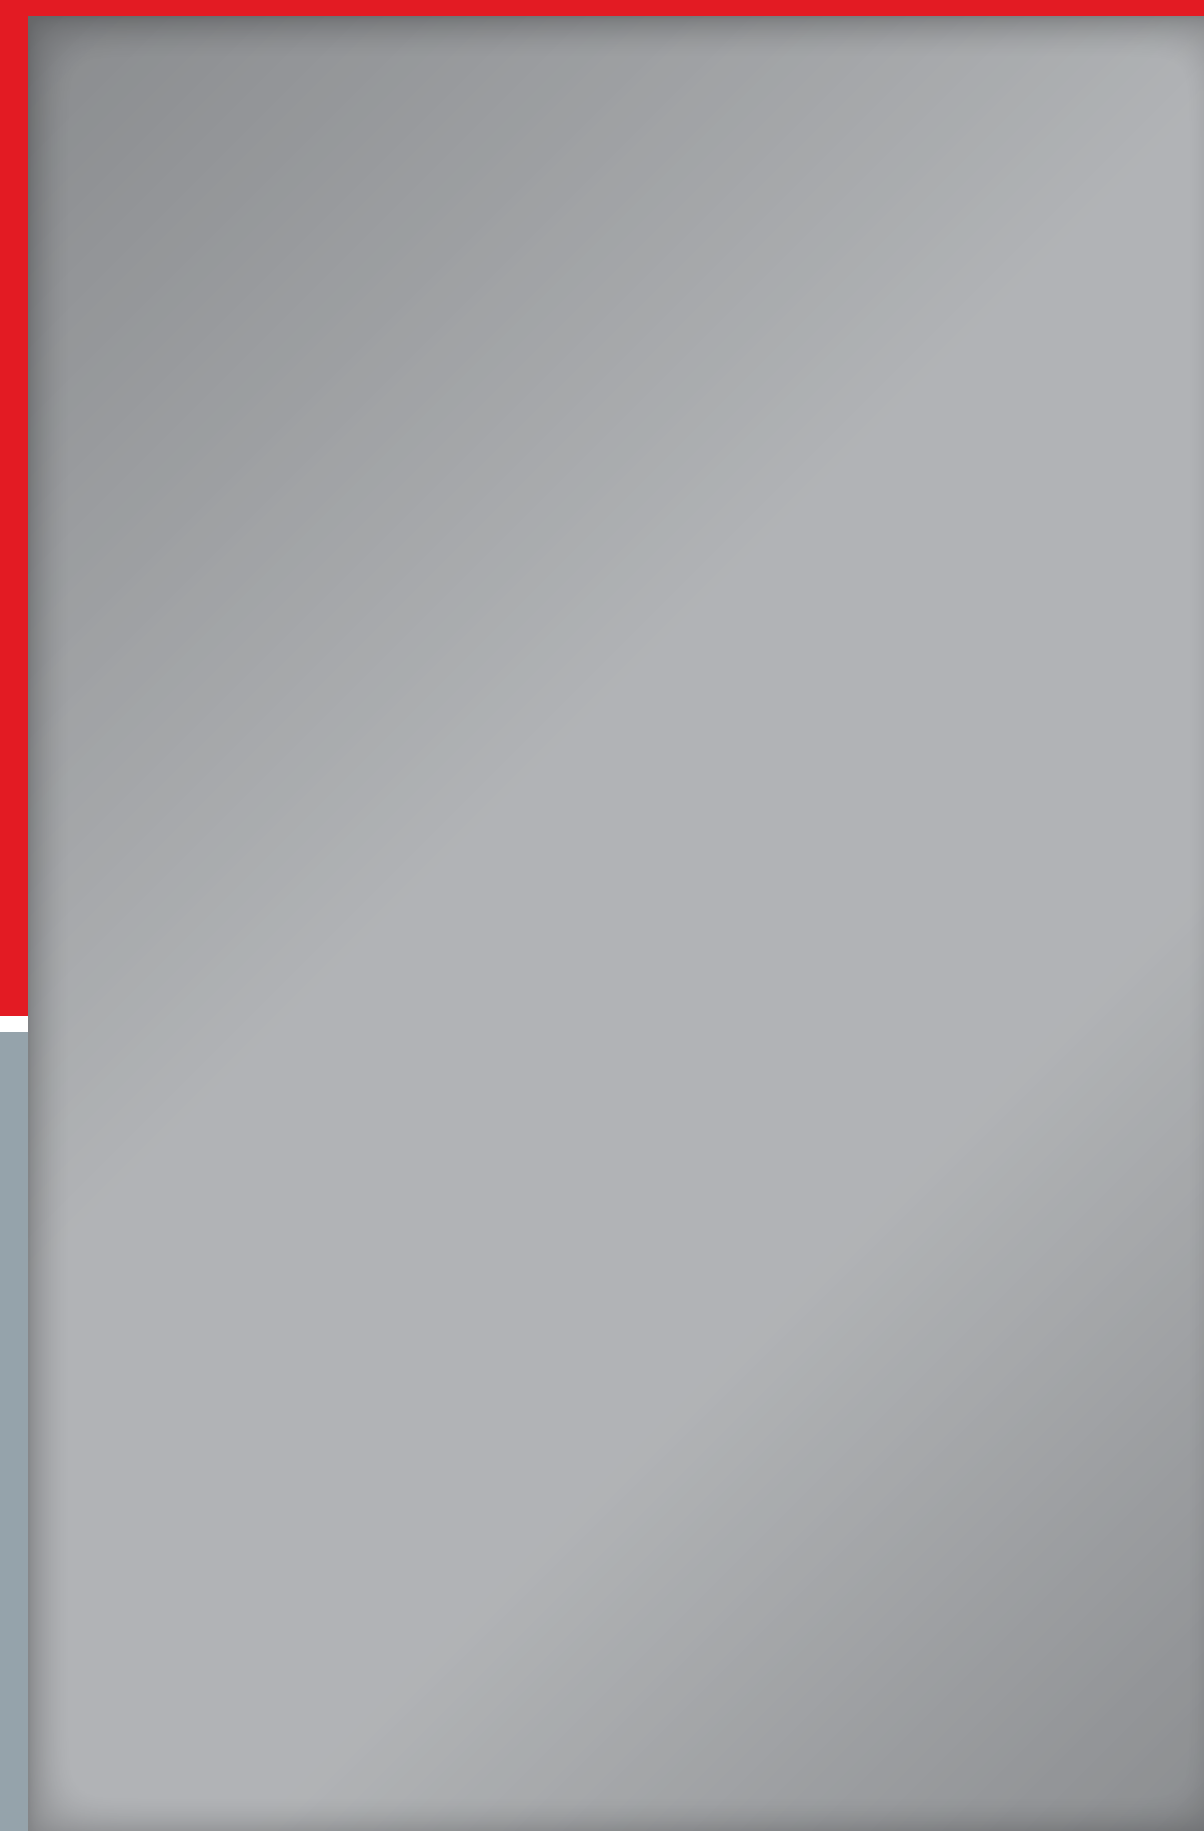

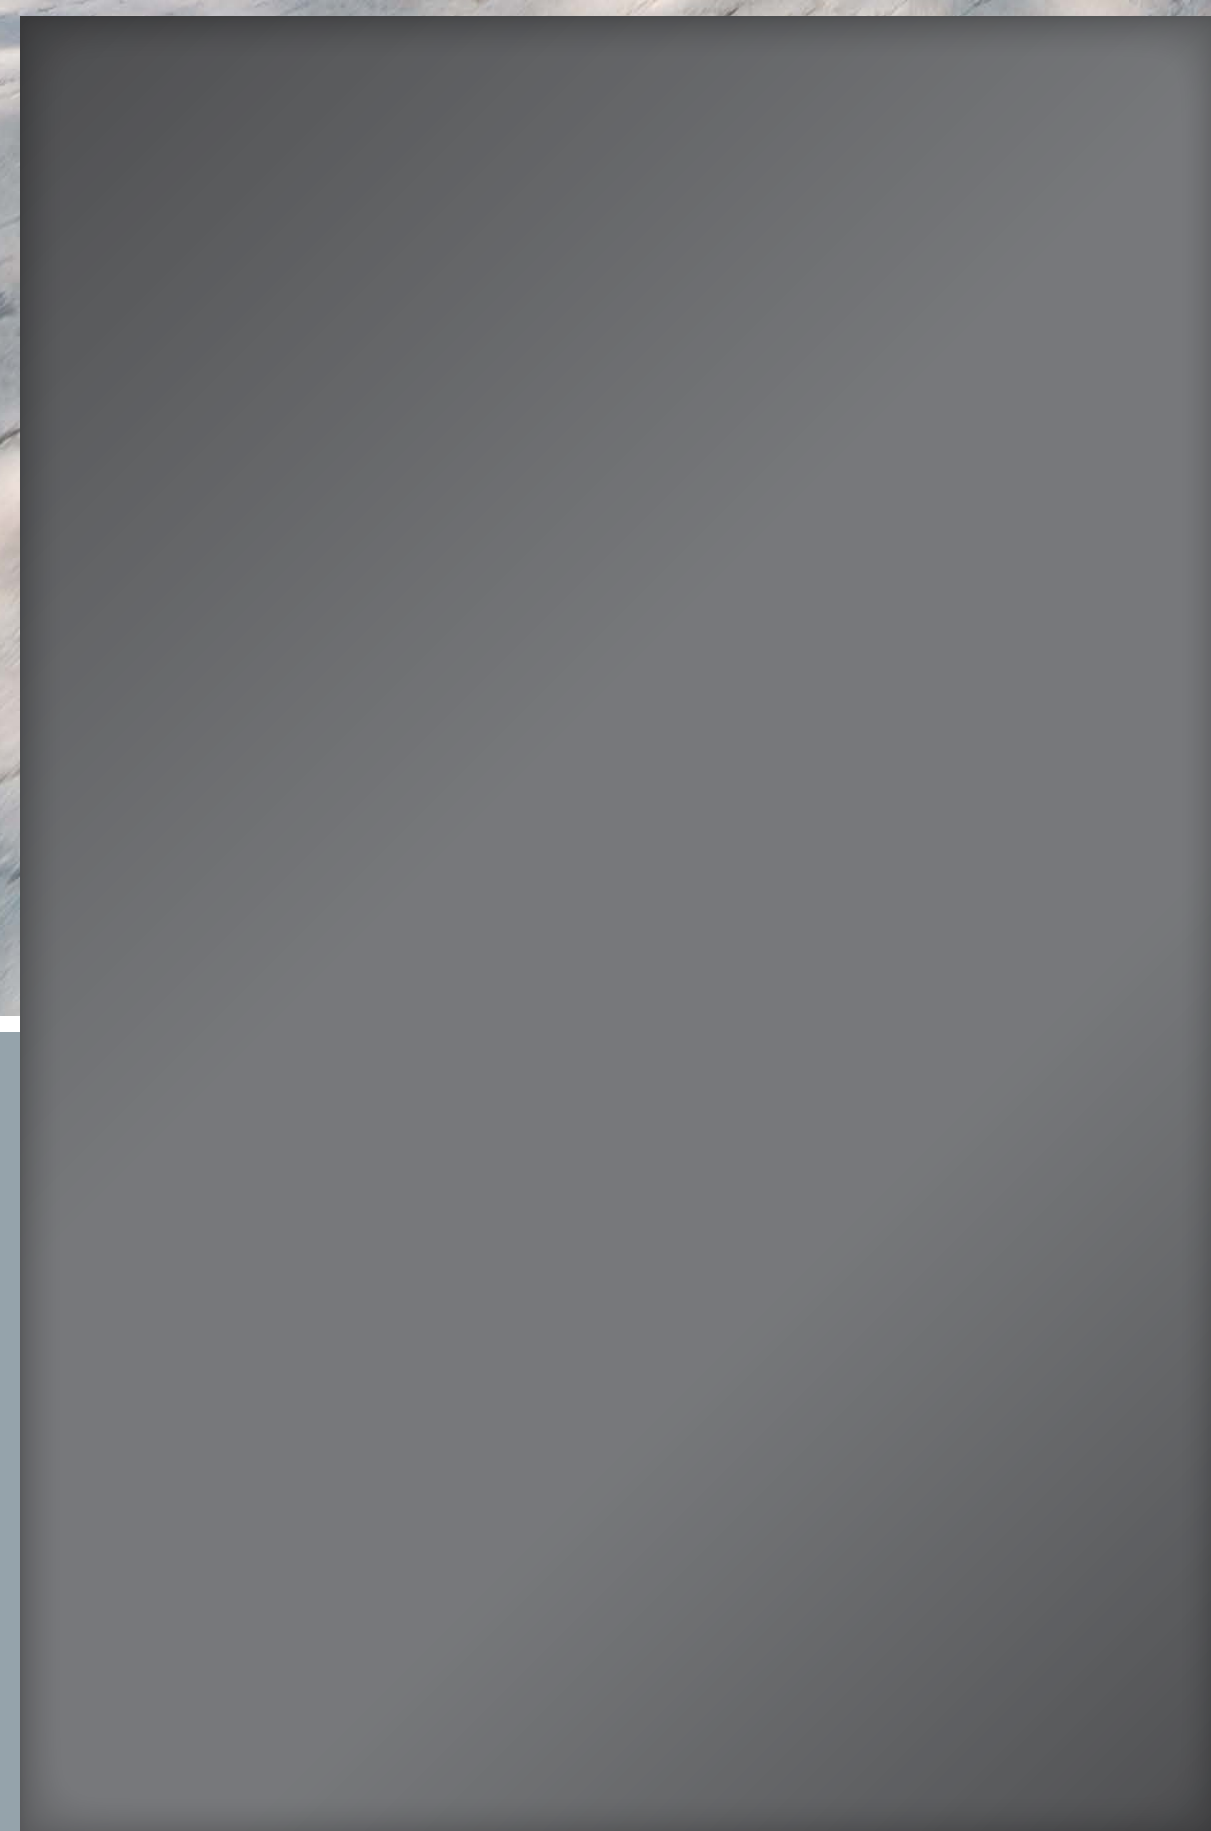

# Element™

American Standard Window Film has set the standard for the profession. All products feature 99% U/V rejection, an ultra durable hard coat, manufactured in the latest state of the art facility in Las Vegas, Nevada. And, a factory backed warranty.

**el•e•ment** | ĕl'ə-mənt | a substance that can not be broken down by natural means.

The Element series lives up to its definition as an enduring — and stylish — film. A non-metal, color-stable window film, it is manufactured using a proprietary manufacturing process of nano-molecular elements. This is an ultra-clear film with no electrical interference, and a lifetime of good looks.
