

FROSTED PLOTTER – CUT GRAPHICS

Opalux® Window Graphics cover the whole range of creative surface graphics, from plotter-cut frost films applied to glass, to plotter-cut coloured vinyl and digitally printed graphics applied to glass and other surfaces.

Opalux® Plotter-cut Opal Frost Graphics

These are applied to Glass Partitions, Plate Glass Windows, Retail Display Windows, Glass Screens, and a multitude of other glass surfaces. They perform a variety of functions including manifestation and partial privacy screening while at the same time projecting creative images, from discrete corporate logos and text to freeform bespoke graphic designs & patterns.

Opalux® Vinyl & Digital Print Graphics

This covers a whole range of bespoke applications, materials and processes allowing virtually total creative freedom for window graphics and signage, vehicle graphics and multi-surface digital graphics.

Project Execution

Tell us what you are aiming to achieve and we will connect you via the Opalux® Market Place to the professional skilled providers best able to expedite your project to a successful completion on time and within budget.

Accurate selection of window films requires specialist knowledge, and it is recommended that specifiers contact the company at the specification stage +44 (0)845 026 1125 or email solutions@opaluxwindowfilms.com
